NEW ON STUDY PROGRAMME INITIAL ACCREDITATION/MODIFICATION PROCESSES

July, 2023

INITIAL ACCREDITATION / MODIFICATION – MEETING WITH REPORT WRITING TEAMS

Evaluation Committees by field of knowledge & PhD (CERs) may request a virtual meeting with the assessment report writing teams if they consider it necessary. If the university accepts the proposal, the meeting will take place before the issuing of the proposed assessment report.

CLOSING FEEDBACK TO EVALUATION PANELS

At the end of all evaluation processes, the final reports will be sent to the evaluation panels that participated in the initial evaluation of the proposals together with the invitation to participate in the process satisfaction survey.

Once the meta-evaluation of the process has been completed, the conclusions of the process will be made available to the panels.

ELECTRONIC PROCESSING OF APPLICATIONS FOR NON-SUBSTANTIAL CHANGES ASSESSMENT

The ACPUA launches the electronic processing of applications for non-substantial study programme modification. Universities will have an electronic method for this procedure.
